

How to Fold the Flyer Paper Airplane

1. Fold in half lengthwise then fold in top corners to center line.
2. Fold down new folded tip.
3. Turn over paper and fold in new top corners to center line
4. Open and refold top corners to line up sides of paper with new diagonal lines.
5. Fold in new top corners to center line.
6. Fold along center line and fold down wings sloping towards tip. Take, staple, or glue as needed.
